Hello

Thanks for helping me get some background on this story. I wanted to confirm a couple of things with your office and then see if we can set up a taped interview soon. I need to have a draft in by early next week and I will do a short radio spot as well.

Here are some numbers I wanted to confirm:

The DA's office has identified a 140+ cases since 2005 that may be impacted? Are those numbers correct? **Yes**

Also, how many homicide convictions has the DA office had since 2005 (or in the timeframe you were able to identify these 140+ cases)? **577 From Jan 2005 to yesterday.**

Besides that, would Mr. Greenberg be available for a phone interview Friday afternoon or perhaps sometime Tuesday? **Tuesday Morning or Early Friday Afternoon.** I will essentially reiterate the questions we talked about yesterday over the phone. Who will be effected by this law? Whats the burden at the DA's office? And could this see potentially dangerous people being set free?

Thank you for all your help. Hope to hear from you soon.
